Jeannine Uwase

Software Developer / UI/UX Designer/ Cybersecurity

I am a creative software Engineer with 3 + years of experience in full stack development , specializing in JavaScript, React, Node.js, TypeScript, Python, Django and etc. I've worked with more than 5 startups, transforming ideas from zero to "Hello, World!" My core values are continuous learning, teamwork, and excellence. Passionate about smart farming, I aim to improve lives through technology. I often lead teams to meet user needs and enjoy spending time with family when not coding.
